

MONTON CRICKET CLUB

CHANGING ROOM POLICY

In accordance with the ECB's Guidelines on Changing Rooms and Showering Facilities please note the following:

- Adults must not change, or shower, at the same time using the same facility as children. This means that if you are part of a mixed-age team, adults should not change in the presence of children.
- Adults and children may be present together in the changing rooms for team-talks, but when doing so should refrain from changing.
- Unless specifically designated as a female changing room (which may occur when a female only team requires its use) this is a male changing room. There is a female changing room at the rear of the changing block, accessed from the side of the building.
- Due to the risks of inappropriate photography or filming, mobile phones must not be used in changing rooms.
- If children are uncomfortable changing or showering at the club, no pressure should be placed on them to do so. Suggest instead that they may change and shower at home.
